MANAGEMENT’S DISCUSSION AND ANALYSIS (Unaudited)

This section of the annual financial report of the Virginia Public School Authority (the “Authority”) presents an analysis of the Authority’s financial performance during the fiscal year that ended on June 30, 2007. This information should be considered in conjunction with the information contained in the financial statements, which follow this section.

Authority Activities and Highlights

The Virginia Public School Authority, created by Chapter 11, Title 22.1, *Code of Virginia*, 1950, as amended, provides financing to localities under the pooled bond program through the sale of its bonds. With the proceeds of its bond issues, the Authority purchases a “pool” of general obligation bonds from localities (the “Local Issuers”). Each Local Issuer uses the proceeds for the purpose of financing capital projects for public schools.

The Authority currently has bonds outstanding under the 1997 Resolution. The 1997 Resolution, adopted on October 23, 1997, serves as the primary instrument under which the Authority issues bonds under its pooled bond program. The 1997 Resolution bonds are secured by general obligation local school bonds purchased; the State Aid Intercept Provision; and, a sum sufficient appropriation, first from available Literary Fund monies and then from the Commonwealth’s General Fund. During the fiscal year, the Authority issued \$353,190,000 under its pooled bond program.

In addition to its pooled bond program, the Authority also issues special obligation bonds under its stand-alone program. Bonds issued under the stand-alone program are secured solely by the local school bonds purchased from one or more specific localities. The Authority acts as a conduit issuer under the stand-alone program. The Authority also issues obligations to finance technology equipment purchases for local public school systems within the Commonwealth. These obligations are payable from, or otherwise secured by, the assets and income of the Literary Fund and now benefit from a sum sufficient appropriation from the Commonwealth’s General Fund. The Authority issued \$56,765,000 under the educational technology equipment note program during the fiscal year, but did not issue any new special obligation bonds.

Overview of the Financial Statements

This discussion and analysis is an introduction to the Authority’s basic financial statements, which are comprised of two components: 1) fund financial statements, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements. The Authority is not required to present government-wide financial statements since all of its activity is reported in an enterprise fund, which would not change in measurement focus (economic resources) or basis of accounting (accrual) for government-wide statements.

The financial statements of the Authority offer short- and long-term financial information about its activities. The Statement of Net Assets provides information about the nature and amounts of the Authority’s cash, investments, and receivables (assets) and its obligations to creditors

(liabilities). All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Fund Net Assets. This statement measures whether the Authority successfully recovered all its costs through investment earnings, bond proceeds, appropriations from the Commonwealth, and the collection of receivables. The Statement of Cash Flows provides information on the Authority's cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financial activities.

Financial Analysis of the Authority

The Authority provides a vehicle for financing capital projects for primary and secondary public schools in the Commonwealth's counties, cities and towns. On local school bonds held by the Authority, localities pay interest 10 basis points (0.10%) above the rates paid by the Authority on corresponding maturities of its bonds. This revenue is deposited to the Authority's General Fund and used to pay the operating costs attributable to its financing programs, including costs of issuance and administration, such as rebate compliance expenses. The Department of the Treasury provides staff support for the Authority. The Authority owns no capital assets.

Unrestricted	8	8
Total net assets	\$ 16	\$ 8

Total assets increased during the year by \$192 million, or 6%. This is primarily due to an increase in local school bonds outstanding (\$173 million). Total liabilities increased by \$184 million, or 6%, during the same period as a result of an increase in outstanding bonds payable (\$178 million). Accordingly, an increase of \$8 million is reflected in net assets.

Debt Administration

As a financing entity, the whole business of the Authority is debt administration. The Authority issues bonds, pursuant to its pooled bond programs, to finance capital projects approved by the local governing bodies of counties, cities, and towns of the Commonwealth of Virginia. Such bonds are secured by general obligation bonds of the participating local issuers, which provide payment of principal and interest when due. Obligations issued pursuant to the technology notes programs, in conjunction with the Board of Education, are paid from, and secured by, appropriations made from the Literary Fund. The following table summarizes bond issuance activity during the year under each program:

The Authority obtains bond ratings from Moody's Investors Service (Moody's), Standard and Poor's Rating Service (S&P) and Fitch Ratings, Inc. (Fitch). The table below summarizes the ratings on outstanding Authority bonds.

	<u>Moody's</u>	<u>S&P</u>	<u>Fitch</u>
Pooled Bond Programs ¹	Aa1	AA+	AA+
School Educational Technology	Aa1	AA+	AA+

¹ 1997 Resolution Bonds

Since the Authority's bond programs are either backed by state appropriations (School Educational Technology Notes Programs) or carry the credit support of the State Aid Intercept Provision (Pooled Bond Program), the bond ratings are a direct reflection of the Commonwealth's triple-A rating from each of the three rating agencies.

Future Impact to Financial Position

In November 2007, the Authority issued \$223 million of School Financing Bonds (1997 Resolution) Series 2007 B to purchase certain general obligation local school bonds to finance capital projects for public schools.

Notes to the Financial Statements

**VIRGINIA PUBLIC SCHOOL AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
AS OF JUNE 30, 2007**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The Virginia Public School Authority (the “Authority” or “VPSA”) was created by Chapter 11, Title 22.1, *Code of Virginia* 1950, as amended (the “Enabling Act”). The Authority provides financing to localities through the sale of its bonds. With the proceeds of its bonds, the Authority purchases a predetermined number of general obligation bonds issued by localities. The Enabling Act authorizes the Authority to purchase local school bonds issued by counties, cities, and towns under the provisions of Section 15.2-2600, et seq., *Code of Virginia* (the “Public Finance Act of 1991”). The Enabling Act further authorizes the Authority to issue bonds which are payable from the funds of the Authority including:

- 1) principal and interest received on local school bonds held by the Authority;
- 2) proceeds from the sale of such local school bonds;
- 3) any moneys transferred from the Literary Fund or funds appropriated from the General Assembly; and
- 4) a reserve fund(s) created from bond proceeds pledged to secure designated bonds.

Currently, the Authority has pooled bonds outstanding under its 1997 Resolution. Bonds issued under the 1997 Resolution are secured by local school bonds purchased and a “sum sufficient appropriation,” first from available Literary Fund monies and then from the Commonwealth’s General Fund.

In addition to its pooled bond program, the Authority also issues special obligation bonds under its stand-alone program. Bonds issued under the stand-alone program are secured solely by the local school bonds purchased from one or more specific localities. The Authority acts as a conduit issuer under the stand-alone program.

As directed by the General Assembly, the Authority has also issued obligations to finance technology equipment purchases for local public school systems within the Commonwealth. These obligations are payable from, or otherwise secured by, the assets and income of the Literary Fund.

A separate report is prepared for the Commonwealth of Virginia which includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The Authority is a component unit of the Commonwealth of Virginia and is included in the basic financial statements of the Commonwealth.

The accounting and reporting policies of the Authority conform to generally accepted accounting principles (GAAP) applicable to governmental units as prescribed by the Governmental Accounting Standards Board (GASB), the accepted standard-setting

body for establishing governmental accounting and financial reporting principles. The following is a summary of the Authority's significant policies.

B. Basis of Accounting

The accompanying financial statements are reported using the economic resources measurement focus and the accrual basis of accounting under which revenues are recognized when they are earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. The cash basis of accounting is used during the year. The financial statements are prepared on the accrual basis at the end of the fiscal year by the Authority.

C. Fund Accounting

The activities of the Authority are accounted for in an enterprise fund, used to account for governmental operations that are financed and operated in a manner similar to private business enterprises. Enterprise fund accounting is used where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate. All fund accounts of the Authority are presented in total on the financial statements.

D. Bond Issuance Costs, Discounts, and Premiums

Costs associated with issuing debt, which are either offset by fees collected over the life of the respective pooled bond issues from local issuers, reimbursed directly by localities participating in stand-alone issues, or paid from Literary Fund contributions, are expensed in the year incurred. The original issue discount or premium, for each bond issuance, is also expensed or recorded as revenue in the year incurred unless it exceeds 1% of the amount of bonds issued. In that case, the original issue discount or premium is deferred and amortized, on a straight-line basis, over the life of the outstanding debt.

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS (Unrestricted and Restricted)

Cash and cash equivalents of the Authority are held by the Treasurer of Virginia. Cash is defined as demand deposits, non-negotiable time deposits, and certificates of deposit in accordance with Section 2.2-4400 of the *Code of Virginia*. Cash equivalents are defined as investments with an original maturity of less than three months.

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”). Under the Act, banks holding public deposits in excess of the amount insured by the FDIC must pledge collateral that ranges in amounts from 50% to 100% of excess deposits in the case of a bank, and 100% to 110% for a savings institution to a collateral pool in the name of the Commonwealth of Virginia Treasury Board. Accordingly, all deposits are considered fully collateralized.

Section 2.2-4500 and Section 2.2-4501 of the *Code of Virginia* outline the instruments in which public sinking funds and other public funds may legally invest. The Authority adheres to these general guidelines unless bond resolutions require more restrictive investment policies. All investments of the Authority are held in the Authority’s name. The Authority’s investments are valued at fair value, which approximates market value. Details of cash and cash equivalents are presented below. Standard and Poor’s ratings, where available, have also been presented below.

Summary of Cash, Cash Equivalents, and Investments As of June 30, 2007

	Fair Value	Rating
U.S. Treasury and Agency Securities	\$ 3,303,878	AAA
Non-Negotiable Certificates of Deposit	1,676,960	Not Rated
Short Term Investment Fund ¹	21,738,164	AAAm
State Non-Arbitrage Program ^{® 2}	74,490,155	AAAm
Total cash, cash equivalents, and investments	<u>\$ 101,209,157</u>	

1 The Authority invests certain short-term cash balances held within its accounts in the JP Morgan Treasury Plus Money Market Fund. This is a rated fund, which maintains a policy of investing all assets in U.S. Treasury obligations and repurchase agreements backed by those obligations.

2 The Virginia State Non-Arbitrage Program[®] (“SNAP[®]”) offers a professionally-managed money market mutual fund, which provides issuers with a temporary pooled investment vehicle for proceeds pending expenditure, and with record keeping, depository and arbitrage rebate calculation services. SNAP[®] is an external investment pool registered under the Investment Company Act of 1940, as amended. Participants in the Authority’s various bond programs are required to invest their bond proceeds in SNAP[®].

The Authority does not limit the amount that may be invested in any one issuer. The Authority had investments of 5 percent or more in the State Non-Arbitrage Program[®] (74%) and the JP Morgan US Govt Money Market Fund (21%).

3. LOCAL SCHOOL BONDS

The Authority purchases bonds from (makes loans to) various localities throughout the Commonwealth, which are issued to finance the construction of local public school facilities. These bonds are recorded at purchase price that is equal to the face value of the bonds. Local school bonds purchased under the 1997 Resolution are held in a pledge account of the General Pledge Fund established under its bond resolution. Local school bonds purchased under the stand-alone program are deposited in separate purchase funds established for each issue. Assets of the Authority that are held or received in purchase funds, pledge funds, or debt service funds are classified as restricted assets because their use is limited to the purpose of the funds in which they reside, in accordance with applicable bond resolutions. The local school bonds are held and pledged to repay the Authority's bonds.

The interest rates on the local school bonds are determined by the Authority and fixed at the time of sale of the Authority bonds issued to fund the acquisition of the local school bonds. For pooled bond sales, the interest rate on each maturity of the local bonds is ten basis points (0.10%) higher than the interest rate paid by the Authority on the corresponding maturity on its bonds.

Shown below are the local school bonds held by the Authority as of June 30, 2007.

Local school bonds:

Held in 1997 Pledge Account	\$ 2,786,355,976

5. EQUIPMENT NOTES

Periodically, the Authority issues Equipment Financing Notes, the proceeds of which are used to make grants to school divisions for the purchase of educational technology equipment. The proceeds are invested in the Virginia State Non-Arbitrage Program[®] until requisitioned by localities. The following schedule details the notes that have been issued which still have either bonds outstanding or funds remaining to be disbursed to localities as of June 30, 2007.

Educational Technology Notes

		<u>\$ 336,355,000</u>	<u>\$ 172,390,000</u>	<u>\$ 68,088,482</u>

6. QUALIFIED ZONE ACADEMY BOND

On October 29, 1999, the Authority issued \$2,100,000 in Special Obligations School Financing Bond (County of Northampton Qualified Zone Academy Financing) Series of 1999 as a Qualified Zone Academy Bond ("QZAB"). On December 21, 2001, the Authority issued \$419,060 in Special Obligations School Financing Bond (County of Northampton Qualified Zone Academy Financing) Series 2001 as a QZAB. Also, on December 31, 2002, the Authority issued \$1,433,003 in Special Obligations School Financing Bond (County of Accomack Qualified Zone Academy Financing) Series 2002 as a QZAB. These bonds were issued pursuant to Section 1297E of the Internal Revenue Code of 1986, as amended, and the Authority purchased certain general obligation school bonds of Northampton County and Accomack County to finance capital projects for public schools.

The localities will make annual principal payments to the Authority on the anniversary date of each issuance. Such payments received by the Authority will be held in trust and invested in certificates of deposit maturing on the next anniversary date of each issuance in accordance with the funding agreements. The agreements provide that maturing certificate of deposit proceeds will be combined with the current annual payment and reinvested to the next anniversary date. The final annual principal payments on the 1999 QZAB, the 2001 QZAB and the 2002 QZAB are due October 29, 2011, December 21, 2015, and December 31, 2016, respectively, at which dates the QZABs will mature.

7. DEFEASANCE OF DEBT

From time to time, when interest rates indicate that it would be favorable to do so, the Authority has issued refunding bonds to defease outstanding bonds. These refundings have placed the proceeds of the new bonds in irrevocable trusts with escrow agents to provide for all future debt service on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included on the Authority's financial statements.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 23, "Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities," the difference between the reacquisition price and the net carrying amount of the bonds defeased with refunding debt is amortized as a component of Interest on Bonds over the remaining life of the refunded debt. Therefore, Bonds Payable has been reduced by \$46,194,100 to reflect the remaining deferral on debt defeasance at June 30, 2007.

At June 30, 2007, \$331,565,000 of bonds outstanding are considered defeased for financial reporting purposes.

8. TRANSFERS

During the year, the Authority received \$7,851,094 from the Literary Fund to pay interest on the various outstanding Educational Technology Notes. Also, in June 2007, the Authority transferred \$170,221 to the General Fund of the Commonwealth pursuant to Section 3-3.01 of Chapter 951 of the 2007 Virginia Acts of Assembly.

Finally, in November 2006, the Literary Fund transferred \$183,701 to the Authority representing actual costs of issuance related to the VPSA Educational Technology Notes Series VI, in accordance with the 2006 Appropriations Act, Item 135(c) 14.

9. ARBITRAGE EARNINGS

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August 1986, calculate and rebate arbitrage earnings to the federal government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. The Authority and the issuers of local school bonds purchased by the Authority must comply with the rebate regulations in order for the Authority's bonds to maintain a tax-exempt status. The regulations require the excess of the aggregate amount earned on investments purchased with the bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield to be rebated to the federal government.

Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least every five years over the life of the bonds. Some Authority bonds may be exempt from the rebate requirement if they meet statutory exceptions per the rebate regulations. The Authority may also elect, on or before the date of the bond issue, to pay a penalty in lieu of rebate if it does not meet certain expenditure schedules. If such an election is made and if the Authority (local issuer) meets the expenditure schedule, the Authority (local issuer) retains any arbitrage earnings. The Authority, to date, has not elected penalty in lieu of rebate due to the difficulty in estimating local issuer's expenditure schedules. Rebate and penalty payments are calculated and paid by the Authority as required by law on bond issues that do not meet the statutory exceptions. Rebate installments must be paid no later than 60 days after the computation date.

In most cases, rebate liability is payable by local issuers whose local school bonds were purchased by the Authority. During the year, the Authority's rebate calculation agent, or the locality's rebate calculation agent in the case of special obligation stand-alone bonds, calculate rebate liability or penalty in lieu of rebate if selected by a locality. The Authority paid liability, if applicable, on the following bond issues:

<u>Bond Issue</u>	<u>Computation Initial 5-Year or Final</u>	<u>Computation Date</u>	<u>Liability</u>
(97 Resolution) 2001 Series A	5 year	5/17/06	\$ -
(91 Resolution) 1996 Series A	Final *	8/1/06	30,251
(91 Resolution) 1996 Series B	Final *	8/1/06	-
(97 Resolution) 2001 Series B & C	5 year	11/15/06	-
Ed. Technology Notes Series II	5 year	4/15/07	24,789

* Reports prepared as of the final redemption of the bonds

The Authority paid \$75,500 to its rebate calculation agent for services provided in connection with the above rebate calculations.

The Series 2002 A (1997 Resolution) had a first installment computation date of May 16, 2007. The previously refunded Series 1997 A (1991 Resolution) and Series 1998 A (1997 Resolution) had final rebate computations due as of August 1, 2007. The Series 1998 A final rebate liability of \$12,945 was paid on August 6, 2007. The Series 1997 A final rebate computation indicated no rebate was owed.

The VPSA School Financing Bonds Series 2002 B (1997 Resolution), the VPSA School Financing Bonds Series 2003 A and B (1997 Resolution), and the VPSA School Educational Technology Notes Series III, will require a rebate computation as of November 7, 2007, May 15, 2008, and May 28, 2008, respectively.

10. SUBSEQUENT EVENTS

In November 2007, the Authority issued \$223 million of School Financing Bonds (1997 Resolution) Series 2007 B to purchase certain general obligation local school bonds to finance capital projects for public schools.

11. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Department of the Treasury participates in insurance plans maintained by the Commonwealth of Virginia on behalf of the Authority. The risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bond, automobile, and air and watercraft plans. The Department of the Treasury pays premiums to this Department for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

Chairman, Joint Legislative Audit  
and Review Commission

Board of Commissioners  
Virginia Public School Authority

## INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying basic financial statements of the **Virginia Public School Authority**, a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2007 as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Virginia Public School Authority as of June 30, 2007, and the changes in its financial position and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages one through four is not a required part of the basic financial statements, but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted

principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the Virginia Public School Authority. The Detail of Long-Term Indebtedness is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Detail of Long-Term Indebtedness has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statement taken as a whole.

In accordance with Government Auditing Standards, we have also issued our report dated December 14, 2007 on our consideration of the Virginia Public School Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.
